

State-of-the-art home networking and automation.

Visit Al Salam Tower for the experience.

What is Smart Home?

Smart Homes feature controlled lighting, heating, air-conditioning, video and security systems. They are all connected to each other and can be controlled remotely from any room in your home or from any location in the world, through an internet connection.

What is Home Networking?

Home Networking sets up your house for a Smart future. It means reliable wired or wireless high-speed internet access for multiple devices, both in your home and outdoors. You can enjoy high-speed broadband everywhere in your home and have multiple people online at the same time. You'll also be able to connect multiple devices to the network.

What is Home Automation?

Home Automation does the leg work in your home for you. It offers you control over your appliances and the home environment, while saving energy. You can control your blinds and curtains, lighting, air-conditioning, as well as all doors and access points, all at the touch of a button! You can do this even before you've entered the room or the building itself.

What is Home Monitoring?

Home Monitoring gives you complete control over your home. You'll be able to monitor your premises with sensors and cameras both inside and outside the home. Sensors can alert you about changes in temperature, water leaks and movement in your home.

This allows you to keep track of what's happening 24/7, giving you peace of mind wherever you are in the world.

What we offer:

We offer three Smart Home packages: a bespoke, made-to-order, Customised Solution; a ready-to-go Bundle Solution; and a Plug & Play Smart Home products solution that you can use straight away.

Plug & Play

Smart Home products solution, you can use straight away.

Want to experience Smart Home living but without the cost of a full set-up? Or just want to customise your apartment with a few Smart devices? Plug & Play is exactly that – individual Smart Home products you can plug in and use straight away. No installation required, and no site survey or plan needed to experience the future.

Bundled Solution

Smart Home living, straight out of the box – different set options, DIY installation.

Our Bundle Solution gives you the ability to experience Smart Home living straight out of the box. While the customisable option has more flexibility, we offer various options: a starter kit, one-bedroom apartment, two-bedroom apartment, two-bedroom villa and three-bedroom villa/apartment. We use third-party smart devices with simple DIY illustration, meaning you can make the most of your Smart Home equipment quickly and easily.

Customised Solution

Your bespoke Smart Home experience, made-to-order.

This is Smart Home living at its fullest, where the possibilities are endless. Get Home Automation, Home Networking and Home Monitoring - all built to work best for you and your home.

Our design consultant will work with you to create a unique experience designed to match your lifestyle and needs.

How to get:

- **Step 1 - Visit**
Visit any of our showrooms and talk to a Design Consultant about our Customised Solutions.
- **Step 2 - Appointment**
We'll arrange a Site Survey to have a look at your home on a day that works for you.
- **Step 3 - Site Survey**
We'll go through your needs and collect relevant technical info. This will take two hours or so.
- **Step 4 - Proposal**
We'll create a customised Smart Home proposal once we've completed the site survey and reviewed your requirements. This usually takes around 72 hours, depending on the complexity of the project.
- **Step 5 - Order**
If you're happy with the proposal, place the order for your customised Smart Home project. We can also change any aspect of the proposal.
- **Step 6 - Delivery and Installation**
The work begins! This usually takes between two to six weeks.
- **Step 7 - Completion**
Enjoy your new Smart Home!
Since customised projects are unique, timeframes for delivery can vary.
- **Step 8 - Support**
For maintenance and support, you can reach us through the following:
 - Chat support on smarthome.du.ae
 - Dial 04 390 5555 or 155 from any du mobile
 - Visit any of our stores

Request a consultation online at smarthome.du.ae or visit any du store.
